Mormon Messages: Bishop Burton - Humanitarian Efforts Review

The scripture passages "As ye have done it unto one of the least of these my brethren, ye have done it unto me" (Matthew 25:40) and "Remember in all things the poor and the needy" (D&C 52:40) take...

I enjoy helping others. This video is a reminder of that to me and that we can all do more to reach out and help others.

Only Guys Will
This evolution will be tweeted?
According to National Outcomes by the end of the first year of composition students should be able to accomplish the following:

1. Focus on a purpose
2. Respond to the needs of different audiences
3. Respond appropriately to different kinds of rhetorical situations
4. Use conventions of format and structure appropriate to the rhetorical situation
5. Adopt appropriate voice, tone, and level of formality
6. Understand how genres shape reading and writing
7. Write in several genres

Marginalization

The practice of excluding a social group from mainstream society who are not part of the “majority”, by placing that group on the “margins” of society.

Wallowing in Complexity

- What is the historical context of human trafficking? Has it always existed or is this a modern problem?
- What is the general public’s awareness of the issue?
- How does the legal sex industry (porn, stripping, brothels) contribute to human trafficking?
- Are there socio economic factors that predispose women to the sex slave trade?
- Does our society in some sense tolerate the sex trade?
Mr. George H. Sheldon  
Secretary of the Department of Children and Families  
1317 Winewood Boulevard  
Building 1, Room 202  
Tallahassee, Florida 32399-0700

Dear Mr. Sheldon:

In this letter we will introduce you to the issue that we wish to solve with the foster care system so that there is a higher probability of teens becoming independent once they age out.

Some statistics show that thousands of teens in the United States are placed into foster care system annually. Some enter the system when they are merely infants, others enter the system when they are teenagers. Regardless of what the age, children are placed into foster care is or the reasons for them being placed into care, they all suffer trauma. Aside from the emotional, psychological, behavioral, and physical trauma that these kids have they face numerous other problems within the system. A large percentage of children that enter foster care have a poor education. Most do not even finish high school and end up turning to crime as result of education.

Despite all of the problems that foster care children face, the one thing that is often forgotten is the care given to the adults. There needs to be a change and it is this change that we wish to advise you of.

About Us

We are a group of college students that want to address the issue of prostitution within its different communities by presenting a bill with four proposed solutions targeting each of those communities. In order to sign this bill into law, we must obtain the approval of Florida legislature to create brothels, a statewide hotline to report pimps and sex traffickers, create houses to aid victims of sexual exploitation, and incorporate prostitution, self-defense, and morals classes in the curriculum of schools. If it is approved, then it will affect the independent prostitutes in unsanitary environments, the pimps and sex traffickers that take advantage of the freedom of others, the school boards, parents, teachers, and students.

A report of child abuse is made every 10 seconds.

ABUSE OUR CHILDREN...DESTROY OUR FUTURE...
Every child deserves to be loved...Preserving their innocence is one way to make it happen.

LIVE
LOVE
LIFE

*One third of abused and neglected children will later abuse their own children, continuing the horrible cycle.*

*1,500 children die every year from child abuse and neglect. That is just over 4 fatalities every day.*

Don't let children become the victims of violence. Make the difference and call: 1-800-INNOCENCE OR visit us at myspace.com/preservinginnocence
Sponsored by Planned Parenthood, an organization dedicated to reducing unwanted teen pregnancies.

750,000

Teens will get pregnant this year...

- Teens who become pregnant are less likely to attend or finish college.
- A sexually active teen who does not use contraceptives has a 90% chance of becoming pregnant within a year.
- 1 out of every 3 girls becomes pregnant before the age of 20.

Will YOU be another STATISTIC?

Education is the best contraceptive.

*(based on a September 2006 report by the Guttmacher Institute)*
CIVIL UNION
A civil union is a legal status granted by a state. The State of Vermont created civil unions in 2000. It provides legal protection to couples at the state law level, but omits federal protections.

- Because the federal government does not respect civil unions, a couple's right to things such as taxation, pension protections, provisions of insurance for families, and means-tested programs like Medicaid depend on the state they reside in.
- Marriages are respected state to state for all purposes but questions remain as to how civil unions will be treated in other states.

MARRIAGE
Marriage is a unique legal status conferred by and recognized by the federal government, not just state governments.

- Married couples have rights, responsibilities and protections that civil union couples lack such as:
  - Workers' Compensation protections for the family of a worker injured on the job
  - The right to visit a sick or injured loved one, have a say in their life and death matters during hospitalization.
  - Access to COBRA insurance benefits so the family doesn't lose health insurance when one spouse is laid off
  - ERISA (Employee Retirement Income Security Act) protections such as the ability to leave a pension, other than Social Security, to your spouse

MARRIAGE IS A HUMAN RIGHT NOT A HETEROSEXUAL PRIVILEGE
