Welcome to **Latin America: The National Period**. The geographical region known as Latin America is unequivocally integrated with the rest of the world. Traditional scholarship has largely reduced Latin America to a peripheral place within the Western civilization. According to this narrative, Latin America is condemned to follow quite behind the political and economic ideals of Western Europe and US. This rhetoric writes off Latin America as underdeveloped, or pity it as a perpetual victim. In recent decades, scholars have reassessed the role of Latin America in the history of the West. In this upper division class, we will explore the development of Latin America during the national period from this more recent perspective. In analyzing the region, students will learn about the common historical processes Latin American countries went through after they obtained their political independence from the Iberian monarchies, starting in the early nineteenth century. Considering the political, economic, and social particularities of the various countries that comprise Latin America, students will examine their individual insertion within the global market and international politics. Rather than a region that developed mirroring the hegemonic Western powers, Latin American countries developed according to their own elements.

During the semester, students will:

- Recognize the region known as Latin America Spanish is comprised of different countries with their own characteristics.
- Become familiar with the main historical events and processes that affected the region.
- Understand how Latin American countries reinserted within global economy and politics after their political independence from the Iberian powers.
- Critically read primary and secondary sources to examine Latin America’s social, economic, and political role within the world.
- Critically engage the life stories of historical characters to understand Latin America’s political and economic processes within the global scenario.

Assignments:

Short Papers (1200 words, approx. 3 pages): This course requires you to write 2 short papers in response to a question you will receive at least 2 weeks before the deadline. Your paper should have a thesis statement and be built around an argument. Your thesis statement will be your response to the question you receive for that specific assignment and should be stated in the introductory paragraphs.
Build your argument and provide examples in following paragraphs. Reserve the last paragraph to strongly affirm, after showing evidence, your thesis statement. More guidance will be provided in class.

**Weekly Analytical Responses or Comments:** Every week you will have to read and analyze a short primary source. You will have access to the document every Thursday (4 days) before the deadline, at 12pm. In ONE paragraph, you will answer (100-200 words) to the question I will post along the document. In your response, you must include examples from the materials to show you have both read the document/material and understood its content. Comments are due every MONDAY at 11:59pm, unless otherwise indicated. I will ONLY count towards the final grade the top 10 comment grades.

**Movie Analysis:** You must write ONE analytical paper on the Film **Camila** (1984). You should examine the historical context of the movie, the argument of the movie. You must examine how the historical context influence the outcome of the movie. Remember to analyze the film as a historical source. How effectively does it reflect the historical past? Length: 3 pages, double space, Times New Roman 12pts. This assignment is due on **Friday, October 6, 2017, at 5pm.**

One-third of a letter grade will be reduced for each day a paper is late, including weekends, unless you obtained an extension from me, IN ADVANCE. No late assignments will be received during and after the last week of classes.

**Academic Dishonesty:** According to FIU student handbook (p.11) “In meeting one of the major objectives of higher education, which is to develop self-reliance, it is expected that students will be responsible for the completion of their own academic work.” In this class, academic dishonesty is not tolerated. Academic dishonesty includes, but is not limited to, plagiarizing (presenting someone else’s work as yours), or cheating on assignments or the final exam. If students do not adhere to these good practices, the penalty will vary from a zero on the assignment to failure in the course, and may lead to a report in your academic profile.

I will be happy to work with you and with them to accommodate you in the best way possible. Even if you do not need special accommodation, I highly advise you to let me know if you have a disability that might affect your performance in this class.
